

KNIFE STUCK
INTO LUNGChauncy Russlow of Enosburg
Falls; Perhaps Fatally Hurt

IN ACCIDENT LAST NIGHT

He Was Running Along the Street with
Open Knife in Hand, When He Stum-
bled and Fell on the Blade,
Which Penetrated Body.

Enosburg Falls, Nov. 16.—Chauncy, the 10 years old son of Mr. and Mrs. Samuel Russlow, was seriously and perhaps fatally injured as the result of an accident last evening. He was running along the street with a large knife opened in his hand when he fell and the blade pierced his right axilla and probably penetrated the lung. It is thought that the boy cannot recover.

RUNAWAY SPILL
PROVED TO BE FATALJohn Blake, a Springfield Horse Dealer,
Died Yesterday from Injuries Sus-
tained Few Days Ago.

Springfield, Nov. 16.—John Blake, a horse dealer and long a resident of Springfield, died at his home about two miles and a half from this village, as the result of injuries received several days ago. A week ago last Friday, while Mr. Blake was driving through the yard in front of the house occupied by Vinton Parker, on the water works road, his horse became frightened, the wagon was overturned and Mr. Blake was thrown out his head striking on a grindstone.

COULDN'T SURVIVE INJURY.

John Shaughnessy, of Rutland Run Over
by Train, Died Yesterday.

Rutland, Nov. 16.—John Shaughnessy, who was terribly injured on the night of October 27 as he was crossing the tracks in the local railroad yard, and who afterwards underwent the amputation of his right leg, died yesterday at the Rutland city hospital. Mr. Shaughnessy although in critical condition some various injuries, besides the loss of his leg, remained in a comfortable condition for several days and seemed brighter than usual last Tuesday. But on Wednesday there was a change for the worse and the man gradually failed until his death.

Since his injury the lower portion of his body had been in a paralyzed condition, the feeling returning to it only slightly. Had sensibility returned Dr. M. R. Crain, who performed the operation on the man's leg would have considered that there was some hope for an operation on the spine, but his condition did not warrant trial.

Mr. Shaughnessy is survived by a daughter, Mrs. Benjamin Warren, of Hopkins street, with whom he lived, and a brother, Daniel Shaughnessy of Chicago. He was 54 years of age, was born in Troy, N. Y., and had lived in that city, Glens Falls, N. Y., Poultney and this city.

He was one of the oldest employees of the Stoddard Manufacturing company, having been with them before the organization of the firm known as Mosley & Stoddard, when they did business in Poultney.

MANY PLEAS OF GUILTY.

Were Offered in United States Court
at Rutland.

Rutland, Nov. 16.—Several cases were settled without jury trials yesterday afternoon, when the United States court in an adjourned session here, the respondents pleading guilty. Arthur G. Finn of Fairfield, who violated the postal laws, was fined \$100 without costs, and Henry Poirte of Highgate the same amount for smuggling butter. Martin D. Tiley of Hinesburg was sentenced to eight months in Chittenden county jail, Burlington, for violating the most in expectation act. Jean J. Vanderveer of Hartsville was fined \$100 without costs for embezzling post office money.

Rutland, Nov. 16.—The trial of Harry Madison, charged with receiving stolen postage stamps, was started in the United States court here this afternoon. The case of the United States vs. the Montpelier & Wells River railroad, for alleged violation of the interstate commerce laws, was argued this morning. John Powers and Jay La Bonte of West Charlestown will be tried next week on the charge of assaulting a rural mail carrier.

BOYS IN TROUBLE.

Charged with Attempt to Break into
Brattleboro Store.

Brattleboro, Nov. 16.—Francis Deyo, aged 18 and George Fretz, aged 16, both living on Elliot street, were arrested yesterday by Chief George Wilson, charged with an attempt to burglarize the store of Jason Russell on Flag street Sunday morning at about 9 o'clock. They were given an all-day hearing in Municipal Court before Judge E. W. Gibson and both boys were bound over to the April term of the Windsor County court in bail of \$300 each. R. C. Deyo, the father of Francis, recognized his son, while Carl Schorling recognized Fretz.

The defense in both cases is an attempted alibi, the state producing witnesses claiming to have seen the boys in the act of forcing an entrance to the store. The attempt marks another in the long list of Brattleboro breaks continuing during the past two years.

WINDSOR CELEBRATED
START OF CONSTRUCTIONGround Broken For Huge Machine Shop
Amid Great Rejoicing—Plant Will
Be Large Enough to Accom-
modate 500 Workmen.

Windsor, Nov. 16.—Ground was broken yesterday for the machine shop, which will be constructed on the O'Brien and McCarty meadow east of the Central Vermont railway tracks. Charles A. Moore of New York, president of the company, held the plow which turned over the first sod, the team being driven by their owner, Maxwell Evans, vice-president of the company. The Windsor band was in attendance, the pupils of the public schools, the 250 men now working in the machine shop and several hundred citizens turned out to make this one of the most important events industrially in the history of Windsor.

At the formal ceremonies held afterwards, F. S. Hale, M. O. Perkins, president of the village, Vice-President Evans, President Moore, George Gridley, inventor of the automatic turret lathe made by the company, F. L. Cone, superintendent of the shop, and W. H. Craven, manager of Craven Bros. Machine Works, limited, of Manchester, England, spoke.

The new shop was designed by Lockwood, Greene & Co., of Boston and the plans call for a brick building 504 feet in length and 134 wide with solid cement floor and foundation.

It will be one of the lightest and best equipped as well as the largest single machine shop in Vermont. On the west side a small building with individual lockers for the accommodation of 500 workmen will be put. The Flint Building & Construction Co. of Palmer, Mass., has the contract for constructing the building which must be completed by June, 1910. The work of excavating and hauling sand and gravel from the Connecticut river has already begun.

NO FOUL PLAY FOUND—
IN YOUNG MAN'S DEATHAutopsy on Body of Ernest Lockwood at
Springfield Shows That Death was
Due to Natural Causes.

Springfield, Nov. 16.—An autopsy was performed here yesterday afternoon by Dr. C. F. Dalton, of the State Laboratory of Hygiene, on the body of Ernest Lockwood, who was found dead in a bed room adjoining the carpenter shop belonging to his father, on Sunday morning. The examination showed that death was due to natural causes, and that foul play had nothing to do with his demise, as was at first suspected.

The young man was found in rather bad condition, owing to the fact that a gas stove was burning in the room, and all the windows were closed, making the temperature very high. Health Officer Locke was notified and with the selection, a brief examination was made, after which Attorney General J. G. Sargent was communicated with, who ordered an autopsy by Dr. Dalton.

SOCIALISTS MEET AT FRANKFORT.

Attempted Demonstrations, However,
Are Prevented by the Police.

Frankfort-on-Main, Germany, Nov. 16.—After a huge Socialist meeting in the Circus Schuman yesterday, in favor of universal suffrage, serious demonstrations in the streets occurred. Immense crowds formed in procession and marched to the Bismarck monument, where the Socialist editor, Herr Quint, denounced Bismarck as an oppressor, the crowd shouting "Down with Bismarck and the Prussian Junkers." They cheered for election reform. The demonstration next proceeded to the Schiller monument, where speeches were delivered, but there were no disturbances there. From this the line of march was taken up to police headquarters, but mounted and foot police intervened and dispersed the marchers, arresting many of them. Further demonstrations are feared.

CABINET TO DISCUSS CHARGE
Which Has Been Brought Against the
Sugar Trust.

Washington, D. C., Nov. 16.—Attorney-General Wickersham and Secretary McVeigh are engaged to-day in preparing data for the sugar fraud case to be presented to the president at a cabinet meeting. It is thought that the entire session will be devoted to a discussion of the case. It will be the first cabinet meeting since President Taft's summer vacation. He has instructed both officials to sift the scandal to the bottom and bring the guilty ones to justice.

CONDITION IS WORSE.

John G. Cardile, Former Secretary of
the Treasury, Very Ill.

New York, Nov. 16.—The condition of John G. Cardile, a former cabinet officer, is reported as more unfavorable to-day. The ex-secretary of the treasury is suffering from intestinal trouble and is at St. Vincent's hospital.

MARSHFIELD.

Dinner will be served on Nov. 12 to 2 o'clock, the supper at 5 o'clock. Remember the chicken pie at the M. E. Church, Thursday, Nov. 18th. Chicken pie and all that goes with it will be served.

The body of the late Mrs. Mary Wyman was brought here Monday evening from Meriden Conn., where she had lived with her daughter, Mrs. Nellie Northrop, for the past few months. Burial will be made to-day in the Eaton cemetery, Rev. F. E. Currier officiating.

The secretary of the Marshfield Building association, S. H. Unwin, is now prepared to issue new shares and will have the stock book at the next meeting of the Knights, Monday evening, Nov. 22nd, so that all who would like to purchase their shares at that time can do so.

REASONS FOR THANKSGIVING.

Outlined by Governor Prouty in His An-
nual Proclamation.

Governor Prouty has designated Thursday, November 25, as Thanksgiving day, and has issued the following proclamation:

"To the People of the State of Vermont: I, George Herbert Prouty, governor, do hereby proclaim Thursday, November 25, as Thanksgiving day, and have issued the following proclamation:

"Again the crowded storehouses of the husbandmen and the glory of the mountain sides remind us of the time-honored custom of our fathers of setting apart a day of solemn thanksgiving to the bountiful Benefactor of all men for His abundant blessings and His faithful care. The twelve-month past has seen an unparalleled return of prosperity, wide as the continent. Established enterprises are again flourishing and new industries are springing up. The contest for equal laws is prosecuted with less bitterness and clamor, and men are looking less to impractical passions and more to improvement in character and general intelligence as the ground of their hope for better days to be. Peace prevails among the nations, and the conviction that the welfare of each is the welfare of all is rapidly approaching.

"Therefore, I, George Herbert Prouty, governor of the state of Vermont, do hereby set apart Thursday, the twenty-fifth day of November, current, as a day of public thanksgiving, and recommend that upon that day our people gather in their respective churches and assemble at their firesides to return thanks to Almighty God for the state of our country, and the bounty which He has given to our fathers; for the grandeur of the granite mountains, the strength of the forest-covered hills, and the peaceful plenty of the fertile valleys; for the laughter of little children, the persistent hopefulness of manhood, and the quiet trustfulness of old age; for the opportunities of service with which life is filled and the sweetness of rest when toil has been faithful and hard; for the difficulties which try manhood's mettle and the obstacles which furnish the joy of overcoming; for the privilege of working for the common good, and for the hard tasks which the past has left unperformed; for the hope of a better world and a kingdom that is beyond.

"If in any community there are those that want, let the bounty of the more favored banish on that day the sting of poverty. Let every hearth spread wide welcome to the children who have returned, and let the old and young be brought together in the joy of reunion and the gladness of old-time joys. Let our thoughts, food together on the noble record of our noble state, the honor in which she is held throughout the nation, and the substantial foundation that has been laid for our welfare. In the observance of the thanksgiving custom, let us renew the thankful spirit, and take courage from the blessings of the past for the work that is still before us.

"Given under my hand and the seal of the state this tenth day of November, in the year of our Lord, one thousand nine hundred nine, and of the independence of the United States, the one hundred and thirty-fourth.

"George H. Prouty,
Secretary of Civil and Military Affairs."

E. B. HOLLISTER DEAD.

Oldest Past Grand Master in Odd Fel-
lowship of Vermont.

Indlow, Nov. 16.—E. B. Hollister, who was 80 years old, and the oldest grand master in Vermont of the Odd Fellowship died at the Hill Old Fellows' home early this morning. He was admitted to the home from Hope lodge at Manchester Depot three years ago and for two years had been so severely ill with rheumatism that he was unable to get downstairs.

Mr. Hollister was a grand master in 1880, when Odd Fellow lodges were few and far between in Vermont. The body will be taken to Manchester for interment.

O'BRIEN-SWEENEY.

Rutland County Attorney Takes Bride
in His Home City.

Rutland, Nov. 16.—Miss Frances Sweeney, daughter of Timothy Sweeney of this city and Ernest H. O'Brien, one of the foremost lawyers and referee in bankruptcy for this county, were married here last evening at seven o'clock at the rectory of the church of the Holy Innocents by the Rev. W. N. Loneragan. They were attended by Mrs. and Mrs. John O'Neill of Great Barrington, Mass., brother-in-law and sister of the bride. The wedding was a very simple affair. Attorney and Mrs. O'Brien left on the midnight train for a wedding trip.

DOORS CLOSED
ON 4,000 MENGranite Industry of Washing-
ton County Tied up To-day

AS RESULT OF LOCKOUT

Northfield Dispute Over Hand-surfacer
Has Developed into Big Labor Trouble
in Which Barre, Montpelier, Water-
bury, E. Barre, Etc., Are Involved.

Claiming that the strike of the Northfield granite cutters was a violation of the agreement regarding the non-suspension of work pending settlement of grievances, the Barre Granite Manufacturers' association to-day declared a lockout, and the granite industry of Washington county, excepting the quarries, was brought to a standstill and 4,000 men were thrown out of work.

On the other hand, the granite cutters of Barre, Montpelier, Waterbury, East Barre, Williamstown and the scattered towns claim that the general lockout is a violation of the agreement with them, since only the Northfield branch of the cutters has a grievance, and the other branches were not concerned in the present disagreement over the use of the hand-bushing machine, or "bumper," as it is called, in Northfield.

The lockout was declared at seven o'clock this morning, when the striking Northfield cutters had not resumed work, the manufacturers' association having voted last Saturday night to close their plants on Tuesday morning. If the Northfield strikers had not resumed, and the action being backed up by another vote taken at a special meeting last night, Secretary Charles H. Wishart of the association remained at the headquarters of the manufacturers, as authorized, until midnight last night to receive word from the Northfield union, and he was there again this morning from six to seven o'clock, in order to get word; but none came.

In addition, he spent some time last night trying to get into telephonic communication with Secretary John Henry of the Northfield union, but he failed in this. Notification had been sent to the various unions on Sunday that the plants would be closed this morning. If the 150 Northfield cutters were not at work, so that when the workmen here went to the granite sheds this morning and found them closed they were not very much surprised, although union officials expressed much indignation that Barre and other granite towns should have been made to suffer for something another union may have done.

The Barre cutters and the others claim that the agreement of the Northfield branch, G. C. I. A., is separate from their own with the manufacturers, and that there is no grievance between Barre and the association and that they have been locked out in direct violation of their agreement with the manufacturers.

Now the Agreement Reads.

"It is mutually agreed that any grievance or contention that may arise during the existence of this agreement and bill of prices, as to its performance in good faith, by either party, shall be referred to a committee consisting of six members, three to be selected from the local association of manufacturers and three from the local branch of the Granite Cutters' International association, which committee shall act as an adjustment committee, and said committee, failing to agree by a two-thirds vote, shall refer the matter in dispute to an arbitration board of three, one to be selected by the local branch of the manufacturers, and one by the local branch of the Granite Cutters' International association, from their respective bodies, these two shall agree upon and select a third party to act with them, and the board thus constituted shall hear the parties and make an award within fifteen days by a majority vote; such award shall be final. Pending such arbitration in reference to the foregoing bill of prices, it is mutually agreed that there shall be no strike, lockout, or suspension of work." Furthermore, the agreement between the manufacturers and cutters states:

"It is also further agreed that any grievance that may arise during the existence of this agreement that is not covered by the bill of prices and agreement shall also be referred to the adjustment committee, and any agreement they may come to in the matter under consideration shall be accepted by both parties. Pending the consideration of such questions, it is mutually agreed that there shall be no strike, lockout or suspension of work."

It is on this point that the lockout hinges.

That there was a grievance at the granite plant of Cross Bros. in Northfield is generally admitted, but the manufacturers claim that the usual mode of procedure in the foregoing sections should have been followed and that the men ought not to have quit work. Following a meeting of the Northfield branch last Wednesday night, when it was voted not to use the "bumper," several of Cross Bros' men were "sent home," not discharged, the company says, when they refused to operate the machines. Then the others at Northfield quit work and have been out ever since. Retal is not included in the zone of the present trouble, and the men are working there.

WAITING FOR REPLY
FROM SEC. DUNCANNorthfield Union Had Not Heard This
Afternoon from International
Official Who Was at
Toronto.

Toronto.

Northfield, Nov. 16.—President James Powers of the Northfield branch, G. C.

I. A., was interviewed this afternoon by a representative of The Times, and he gave his version of the difficulty in the granite industry, so far as Northfield is concerned, as follows:

"About a month ago, the union here voted to suspend work on the hand-surfacer for a period of six months, or until May 1. Then the union wrote to international headquarters, explaining the action; whereupon, word was received from headquarters supporting the action of the local branch. On getting that approval, the Northfield branch held another meeting Thursday night and voted not to use the hand-surfacer. No notice was given the buses. Cross Bros. turned off one man after another when they declined to use the tool.

"Our grievance committee went to Cross Bros. and requested them to put the men to work until the matter was settled by arbitration. Cross Bros. refused. Then we had a meeting and took action. After this, a conference between the Northfield cutters and the Barre Manufacturers' association, grievance committee, represented by M. N. McIvor, was held, the latter proposing that the men be put back to work and that the machines be run, pending a settlement. This was put before the union here and was rejected.

"On Saturday, we tried to talk with Secretary James Duncan at Toronto over the telephone, but failing to get good connection we wrote to him just what the situation was. We expected to get a reply by letter yesterday afternoon, but up to the present time there has been no response. We are afraid that the letter may have been lost in some way."

The Northfield branch held a meeting late yesterday and took no action. It is understood, although it did refuse to accept the resignation of President James Powers, when he voluntarily tendered it.

PLENTY OF WATER
WAS FURNISHEDSay Cross Bros. to Lay Dust on Stone
During Use of the "Bumpers."Brief Statement by
The Firm.

Northfield, Nov. 16.—Cross Bros., in whose granite plant the present trouble broke out, stated this afternoon that four men were laid off because they refused to run the "bumpers" as usual. Furthermore, Cross Bros. stated that plenty of water was supplied to use in laying the dust on the stone, which the machines stirred up. They also assert that the same machines were used at John Burns granite plant after it had been voted by the union, as alleged, not to use them.

RUSH FOR HOME.

Usual Winter Exodus Accelerated by
Present Labor Dispute.

The usual rush of people from Barre to the "old country" during the early winter months has been accelerated during the past few days by the labor trouble in the granite industry; and within twenty-four hours one steamship agency in this city has sold twenty-three transportation tickets across the Atlantic, most of them with Italy as the point of destination. Practically all these people plan to return, some after only a brief visit and others, at the latest, by next spring. Yesterday and to-day there was quite a demand for tickets.

STRICKEN WITH HEART FAILURE.

Elizabeth Nicora Died When Physicians
Were Removing Splints from Fracture.

Miss Elizabeth Nicora, aged 16 years, daughter of Mr. and Mrs. Frank Nicora of 21 Vine street, died at 11 o'clock yesterday morning at the City Hospital of heart failure, with which she was stricken on while Dr. W. D. Reid and E. G. Chidell were preparing to take the bandages and splints off her right leg, which was fractured three months ago. To relieve her from the pain, the physicians had given her a small dose of chloroform, when she suddenly began to faint, and died within a few minutes, in spite of all that the physicians could do to revive her.

Miss Nicora was thrown from a wagon in a runaway accident last summer, as she was coming from a picnic in Townsend's grove with her parents, and received a fracture of her right leg. She was taken to her home and the fracture reduced, and about three weeks ago it was found that there was trouble with the leg and she was taken to the hospital, where the limb was reset.

She leaves to mourn her loss her parents, two brothers and two sisters. The funeral will be held from the house Wednesday afternoon. Interment in the Hope cemetery.

GOOD NEWS FOR
MARSHFIELDBurned Buildings Will be Re-
built Very Soon

AN ENTHUSIASTIC MEETING

Of Marshfield Building Association Was
Held Last Night and Plans Were
Made for Rebuilding Knights of
Pythias Block.

Marshfield, Nov. 16.—A very enthusiastic meeting of the Marshfield Building association was held last evening, when nearly every stockholder was present. After the meeting was duly called to order by President J. W. Meers, reports of Solicitors J. Berton Pike and W. O. Southwick were heard and various suggestions made by as many members. The association has at present 174 shares, representing \$1,740.

Mr. Pike reported 44 shares of \$10 each and Mr. Southwick 26 shares, to be taken by Knights of Pythias and Pythian Sisters, all new in good standing in the orders, with more who have not yet reported, but who will take stock if a new building it put up.

The motion to rebuild the Pythian block larger and better was made, which motion met with the approval of the assembly. The new building will be approximately 40 by 60 feet, three stories high, to replace the three-story building, 30 by 40, which was recently burned. Stock is now for sale to all Knights or Pythian Sisters.

Much work has been offered by the public, outside these orders, that a new building be erected, work to be begun at once. The underpinning is already split and yarded, ready to be drawn to the site, and this, too, was done by friends of the order. The association wishes to thank all who have so freely offered assistance.

The five directors of the association were elected a building committee. They are J. A. Ennis, S. H. Unwin, J. W. Boudley, J. W. Meers and W. O. Southwick, with E. C. Picken. The site is already cleared and work will be begun at once on the rebuilding.

It is understood that G. D. Ormbses will rebuild as early as next spring. Mr. and Mrs. Ormbses have received much from the people in the surrounding towns, as well as in Marshfield, and they wish to express their thanks and appreciation through the columns of this paper. They feel that they cannot express their gratitude.

SUCCESSFUL ROLL CALL.

Held by the Odd Fellows and Rebekahs
at Plainfield.

Plainfield, Nov. 16.—The Odd Fellow and Rebekah lodges held a joint roll call at the Odd Fellows hall last evening. Forty-four members responded from Aresdia lodge and sixty-three from Pleasant Valley lodge. An interesting program was given, consisting of remarks by the many brothers, quotations by the sisters, songs by Mrs. H. C. Holt and Messrs. Daniel and Reuben Hudson, and readings by Mrs. George Hollister and H. W. Heath. An original poem was read by Mrs. Frank Jackson, telling the brothers and sisters of the Rebekah fair which will be held in the near future. An oyster supper was served after the entertainment.

ASSETS ALL EXEMPT.

Claimed by Two St. Albans Men Fil-
ing in Bankruptcy.

Rutland, Nov. 16.—Two bankruptcy cases were filed yesterday with Clerk P. S. Platt of the United States court. The petitioners are George F. Armstrong, engineer, and Fred C. Plank, a woodworker, both of St. Albans. The former has liabilities of \$148.08 and assets of \$195.48 and has assets of \$40. The assets in both cases are claimed to be exempt.

The federation of the Methodist and
Congregational churches of Fairlee has
brought about a necessity which the
church, with the help of the people
of the town, and any who may assist,
will try to meet. At a meeting which
was held on the evening of November 9,
it was voted to build a parsonage. Al-
though there were but few at the meet-
ing, over \$300 was pledged. The execu-
tive committee of the church was elected
building committee with full power to
buy a lot and erect a parsonage.

The case of Mrs. Henry Hayes of Mid-
dibury is very peculiar. She has been
ill and confined the last since last
spring with heart disease, stomach trou-
ble, Bright's disease and other troubles,
and last week it was not thought that
she could live from one hour to another.
But Tuesday afternoon, when left alone
for a few minutes, she got out of bed
alone and took a seat in a chair, to the
great surprise of her family. Her con-
dition the next day was hopeless.

The tuberculosis camp, which has been
conducted near Brattleboro, under the
auspices of the Women's club, since July
1, was closed Friday for the winter. The
camp was very successful the past sea-
son, tuberculosis having been cured or
arrested in several cases. The club in-
tends to open the camp earlier next year,
probably about May 1. A piano has been
donated for use at the camp hereafter.

Windsor is experiencing quite an asphy-
xia in trade. One merchant in town is do-
ing four hundred dollars a month better
business than he did last year, and the
Windsor Machine company, which had a
period of inactivity last year, is now
running over time.
